Experience

QuickIntell

June 2025 – March 2026

Full Stack Developer Intern | React, LangChain, FastAPI, AWS

Remote

- Built a **denial-resolution agent and claim-processing automation system** to parse EDI/ERA data, reducing manual billing effort and enabling faster root-cause analysis.
- Unified **5+ health services** of diverse **clearinghouses** for **Revenue Cycle Management** via a centralized **MCP**
- Mitigated **15+ critical security vulnerabilities** and achieved **HIPAA and SOC 2 readiness** by implementing **AWS KMS encryption** and strict **IAM privilege policies**.

ITP Electronics Pvt. Ltd.

May 2024 – July 2024

Software Developer Intern | Python, PyTorch, OpenCV, PaddleOCR

Gurgaon, Haryana

- **Achieved 88% OCR data extraction accuracy** on low-quality industrial labels by building a custom **OCR pipeline** with rule-based regex parsing.
- **Reduced manual BOM generation effort by 40%** by developing an **automated wire-harness detection system** for industrial part identification.

Industrial R&D Unit, DTU

Feb 2024 – May 2024

Web Developer Intern | MySQL, PHP, JavaScript, REST APIs

Delhi, India

- Built a **research proposal management portal**, improving **page-load time by 30%**.
- Developed **scalable data models and query workflows** for efficient tracking and management of proposals.
- Refactored legacy systems into **modular, reusable components**, enhancing maintainability and scalability.

Education

Delhi Technological University

2022 – 2026

B.Tech. in Computer Science, Minor in Machine Learning

CGPA: 9.36 / 10.0

Projects

ChatUI – AI Chatbot Library | React, FastAPI, LangGraph, Pgvector, MCP, SSE

- **Engineered an embeddable multi-agent chat interface** with seamless agent switching, follow-up prompting, contextual conversations, real-time streaming, and integrated voice (STT/TTS).
- **Designed a multi-agent RAG architecture** with MCP integration for **GitHub** and **custom competitive programming data** to deliver enriched, context-aware responses.
- **Built automated data ingestion pipelines** using GitHub Actions, enabling continuous synchronization and retrieval over **500+ notion documents**.

Ekalavya – AI-Powered EdTech Platform | FastAPI, Supabase, Multi-LLM Orchestration, AI Voice

- **Built a high-concurrency EdTech SaaS platform** supporting 80+ simultaneous users per virtual classroom by leveraging **Supabase real-time subscriptions** and FastAPI's asynchronous processing.
- **Implemented a multi-llm orchestration layer** to dynamically switch between proprietary and open-source models for personalized learning paths and adaptive, multilingual content delivery.
- **Designed a real-time teaching interface** powered by an **AI voice agent**, achieving human-like interaction for automated student doubt resolution and dynamic lecture delivery.

Technical Skills

Languages: C++, Python, TypeScript, JavaScript

Web Development: React.js, Next.js, Node.js, Express.js, FastAPI, JWT, REST APIs, GraphQL

Databases: PostgreSQL, MySQL, MongoDB, Redis, Pinecone, ChromaDB

Cloud & DevOps: Docker, Linux, CI/CD, AWS, Kafka, Terraform

Artificial Intelligence: PyTorch, TensorFlow, OpenCV, Transformers, LLM RAG, LangChain, LangGraph

Coursework: Data Structures & Algorithms, Neural Networks, Operating Systems, Computer Networks

Achievements & Leadership

Competitive Programming: LeetCode 1941+, Knight | Codeforces 1434+, Specialist | CodeChef 1731+, 3 Star

Innovate & Inspire (Season 13): Achieved **1st rank** among **500+ teams nationwide**.

General Secretary, SR-DTU: Supervised operations including **INVICTUS**, oversaw **50+ members** and **15+ events**.
